

# UBISTOR

## SAFESTOR ENTERPRISE<sup>®</sup>

POWERED BY COMMVAULT

Take a load off your IT plate. If you are a new or current Commvault user looking for a better way to manage your Commvault environment, SafeStor Enterprise was designed specifically with you in mind. Keeping your data safe requires a solution for data management and disaster recovery – one that rolls industry leading software, on-premises and cloud infrastructures, and expert platform management into a simple operating expense. Our feature-rich service enables highly automated, policy-driven data management across your entire environment, offering centralized backup, recovery, archive and security functionality. We can even protect IT environments with software and system requirements not supported by other backup technologies, like SAP, Solaris, Oracle, and IBM iSeries and AIX.

### ABOUT COMMVAULT

For over twenty years, Commvault has been innovating their data management software so your organization can be ready. Wherever you are in your data journey, Commvault has the product to help use, move, manage, recover, and optimize your data.

## MANAGED SERVICE ADVANTAGES

### Industry Expert Service

UbiStor knows what we're doing when it comes to proactive monitoring, system optimization, patch management, and governance across the entire organization.

### Scalable

Backup and Disaster Recovery services designed to grow and change with your business, integrating all your data into a single, scalable solution.

### Custom-Tailored

Computing-environment to secure your data off-site, in our Tier-3+ data centers leveraging our SOC 2 Type II certification.

## TECHNOLOGY ADVANTAGES

### Replicable

Replicate to public, private or hybrid clouds for offsite data backup and recovery. No matter what IT infrastructure mix you rely on, we ensure a single, scalable solution.

### Cost Efficient

Drives IT costs down through precise planning, better resource utilization and careful alignment of advanced technology with specific RPO/RTO.

### OPEX Model

Move to a fully OPEX model to reduce costs, simplify the software procurement process, easily scale on demand, and leverage UbiStor's access to the Commvault's Enterprise Support Program.

## WHY UBISTOR?

### BACKED BY PEOPLE

Our solutions are designed by people, for people.

### FLEXIBLE SOLUTIONS

A custom approach design for your business.

### RESILIENCE DRIVEN

Designed for business-critical IT infrastructures.

### CERTIFIED EXPERTS

We stay ahead of industry changes, so you don't have to.
