

UBISTOR

SAFESTOR RECOVERY[®]

POWERED BY DATTO

Time for an upgrade from old tape backup or less integrated appliance solutions? If you're ready for the future your data storage and disaster recovery program should be too.

SafeStor Recovery, powered by Datto, is the only backup, recovery, and business continuity solution to offer instant local and off-site virtualization, Screenshot Backup Verification™, and Backup Insights™ all from one simple management interface. Recommended for users who are ready for a holistic backup and recovery solution that leverages cloud-based storage and recovery.

ABOUT DATTO

Datto SIRIS is designed for businesses that are always on and need to be resilient to disaster. Backed by Datto's private cloud, a business is only 6 seconds away from its data, no matter what kind of disaster strikes.

MANAGED SERVICE ADVANTAGES

Easy Scheduling

Backups can be scheduled as often as every five minutes, ensuring data is always safely stored.

24/7/365 Support

Our Support Team is available day or night to provide assistance for critical system recovery.

Expert Installation

Our highly trained engineers will ensure your backups are configured correctly and replicated to our cloud for quick recovery.

TECHNOLOGY ADVANTAGES

Instant Virtualization

Allows protected systems to be enabled instantly on the Datto device or in the secure Datto Cloud to reduce business interruptions.

Advanced Backup Verification

Gives users 100% confidence in their backups by automatically verifying system will boot with all data intact.

Seamless Integration

Every piece of the SIRIS stack is built to work together seamlessly from the backup agents, to the SIRIS hardware, to the Datto Cloud.

WHY UBISTOR?
